DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Wednesday, 02 June 2021 at 00:59 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Light winds everywhere will result in widespread Moderate air pollution levels across much of the United Kingdom. However, parts of Scotland, northeast and southwest England will remain with Low air pollution levels for much of the day.

Tomorrow: Areas of Moderate air pollution across the United Kingdom. However, most of Scotland and Northern Ireland, as well as southern England will remain predominantly Low levels of air pollution.

Outlook: The settled weather with mainly light winds will continue across much of the United Kingdom allowing isolated pockets of Moderate air pollution to develop, especially near busy roads and urban centres.
